

A luxurious album dedicated to the life and work of the queen of art déco – Tamara Lempicka. The artist gained worldwide fame thanks to her luminous portraits of famous people. From an early age, she was interested in art, and by visiting the most important European museums, she discovered the secrets of painting. She also loved modern objects and enjoyed life to the fullest. Lempicka's paintings delighted with their beautiful colors, non-standard styling and sensuality of depicted characters, but over time the artist's work began to fall into oblivion. It returned triumphantly after many years, delighting a wide audience once again. The album, in addition to excellent quality reproductions of paintings, includes sketches and photographs from the artist's family archive, with texts by art historian Katarzyna Nowakowska-Sito and the artist's granddaughter and great-granddaughter - Victoria de Lempicka and Marisa de Lempicka.
